

## BACKPACKING GEAR LIST

This Gear List is the minimum required for a successful and enjoyable multi-day backpacking trip in Southwest British Columbia. Please keep in mind that depending on conditions and objectives, on your trip you may be at elevations of up to 2,100 meters above sea level; weather conditions may include below zero temperatures, rain, snow and high winds as well as high summer temperatures; much of your travel will be in off-trail and rough terrain; and, consider the weight factor as you will need to carry all gear for multiple days.
